The Marshall Recycling Center is changing

The Marshall Recycling Center located at the Calhoun County Road Department is undergoing several changes and will eventually become a staffed recycling center modeled after the successful Albion Recycling Center later this year. The county has begun to implement temporary changes to the recycling center. These Phase I changes will be in effect until the new recycling center can be paved and fenced later this year. Ultimately, the Phase II recycling center will offer a cost-effective way for county residents to recycle. Additionally, it will reduce the carbon footprint from hauling the recyclables and produce high value recycling commodities with a low level of contamination.

During Phase I, all of the recycling bins will be located on the same concrete pad. The recycling bins will only be accessible through the walk-in gate. When the center is not open, the gates will be closed and locked. As of February 15th, the recycling center will be changing over to the following hours of operation:

- Tuesday 8 am – 5 pm
- Wednesday 8 am – 5 pm
- Thursday 8 am – 5 pm

The Calhoun County Public Health Department will have staff at the center to answer recycling questions and explain the upcoming changes. The Solid Waste Program will also focus on reducing the amount of contamination entering the recycling roll-off bins.

The Phase I order of recycling bins is as follows (starting closest to the walk-in gate):

- Newspaper
- Mixed Paper

- Cardboard
- Comingled (glass, metal, and plastic)
- Comingled (glass, metal, and plastic)

Please be Earth friendly and do not litter the recycling center by leaving your recycling and trash at the center when it is closed.

If the temporary hours do not fit your schedule, the Solid Waste Program invites you to use one of the following Calhoun County recycling options:
